DETAILED ACTION

1. This office action is in response to the Application filed 07/14/2003 and amendment filed 07/29/2004.

2. Claims 1-34 remain pending in the Application.

3. Examiner fully considered Applicant's arguments and finds them persuasive.

Allowable Subject Matter

4. Claims 1-34 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach sizing transistors in each of the cell instances with reference to an objective function thereby resulting in a first plurality of cell subtypes for each cell type, each cell subtype corresponding to a particular cell type differing from all other cell subtypes corresponding to the particular cell type by at least one transistor dimension; and merging selected ones of the subtypes for at least one of the cell types thereby resulting in a second plurality of subtypes for the at least one of the cell types, the second plurality of subtypes being fewer than the first plurality of subtypes **wherein merging on the selected subtypes achieves a balance between the objective function and a cost associated with maintaining the selected subtypes distinct** (see Page 7 of the Specification per Applicant's explanation).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
